Dated:27.01.2020

To,

The Principal / Director,

All AICTE approved Technical Intuitions,

Subject: Uploading the name of the college on the website (public domain) of affiliating University –regarding

Sir/Madam,

I would like to draw your kind attention towards the issue related to **"Recognition of Degree of Indian Engineers in Middle-East"**. Those Indian graduates intending to work / purse higher studies in UAE are required to get their educational qualification equalized from Ministry of Education (MoE), UAE and MoE insists on getting the educational certificates certified for genuineness from the Consulate which is carried out by the Consulate after verifying the same from the respective University/ Board/ Institute.
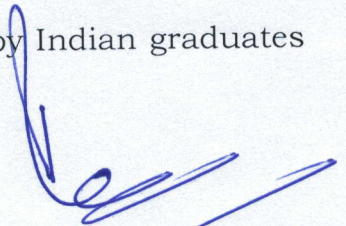

Many Universities host a list of affiliated colleges on their official websites and such cases are resolved by UAE authorities quickly. Universities not having the list of affiliating colleges on their website delay the certification process as it involves correspondence with the University concerned.

Therefore, in order to expedite the verification process, as per the directions received from MHRD, you have to ask your respective University to host the name of your institute on their website and similarly in order to cross verify you are requested to host the name of affiliating University on your website showing the validity period of affiliation. The information related to the change in the name of University (if any) also be shared on respective websites.

सूचना का
अधिकार

This step of yours may quickly resolve the issues faced by Indian graduates passed from your institutes and working in gulf.

Regards,

(Col B Venkat)
Director (RIFD)
